“Traffic Signal Removal on Norfolk Avenue”

As the result of a recent City of Norfolk traffic study at the intersections of 2nd Street and Norfolk Avenue and 3rd Street and Norfolk Avenue using the Uniform Traffic Code those intersections no longer require the use of traffic signals.

The procedure for removing traffic signals from an intersection includes covering the signals for a period of 90 days before their removal to make the public aware of the change.

Drivers in the downtown area need to be particularly cautious at those intersections especially during those first 90 days which will begin the first week of April.
