“Bridge Placed on New Elkhorn River Trail”

A steel frame pedestrian bridge was set in place along the Elkhorn River Trail on Wednesday afternoon. The 20 ton 110 foot long bridge will allow those walking the new trail to walk over the water in Corporation Gulch. The mile long trail extends the Cowboy Trail from the trailhead in TaHaZouka Park on 13th Street east on a ten foot wide path to a new parking lot on First Street. According to Mark Dolechek, City of Norfolk Assistant Engineer, the trail and bridge is anticipated to be completed sometime in the next two weeks.
