“Sewer Work in Southwest Norfolk”

On Monday, September 22, 2014, construction will begin on the sanitary sewer interceptor in southwest Norfolk. Construction will start at the intersection of Fourth Street and Jackson Avenue and go west on Jackson Avenue to Fifth Street and then north to Monroe Avenue. The project will extend to Highway 81 along Monroe Avenue and end at the southwest corner of Highway 81 and Ta-Ha-Zouka Drive. The project consists of installation of a sanitary sewer main interceptor to better serve the south and west portions of Norfolk. Portions of city streets will be temporarily closed as progress is made; however, access to properties along the corridor will be maintained. Please use an alternate route when driving in this area of town and please look for updates as progress is made.
