“Hail Damaged Shingles Replaced at City offices”

Workers are finishing up the huge job of replacing the shake shingles on the City of Norfolk Administration Building with new asphalt shingles. The roof had been damaged last June from a hailstorm that also broke out city employees' car windows near the building. Three skylights gutters, fascia, downspouts and rooftop ventilation system also had to be replaced. The cost was \$75,000 with an insurance settlement paying for the project. Crafts, Inc. of Norfolk were the contractors. The City Administration offices moved from the city auditorium into the former Supertel Building at 309 North 5th Street in 2012.
